

# Delaware Green Lodging Pollution Prevention Practices Checklist

www.dnrec.delaware.gov/p2/Pages/GreenLodging.aspx

The Delaware Green Lodging program is the Department of Natural Resources and Environmental Control and the Delaware Hotel & Lodging Association's initiative to promote pollution prevention (P2) practices in the tourism and hospitality industry. Green Lodging encourages hotels, resorts and other hospitality operations to be aware of their impact on the environment and to take step to reduce these impacts and save their facility MONEY! Green Lodging is a non-regulatory program, and participation is completely voluntary and free of charge. Let us know what you are doing and we will help you let your customers know about the good things you are doing for the environment. They don't need to know that you're saving money at the same time.

**To Join.** Simply fill out this checklist and mail/fax/email into the Delaware P2 Program at the addresses below. If you are doing the basic practices, then you are IN the Delaware Green Lodging program. It's that easy! Your facility will be featured on the P2 website and on the DHLA Green Lodging website.

**Basic Practices.** These are the minimum requirements for all Delaware Green Lodging participants. To quality, <u>you must check all of the Basic Practices.</u> Please feel free to contact us with any questions or include an explanation if for some reason you are unable to implement these.

Simply mark (X) on any of the practices that your facility uses:

\_\_\_\_\_Optional Linen Service. Sheets and towels are not automatically changed every day during your stay, thus decreasing usage of water, energy and harmful detergents.

**Recycling.** Recycling is the most visible sign to your guest that you are green. You should strive to at least provide the opportunity for guests to recycle cans, bottles, etc.

**Water Conservation.** The facility must have a plan for conserving water that should consider water-saving faucets, showerheads and toilets, leak detection, and an effective landscape watering plan.

**Energy Conservation.** The facility must have a plan in place that encourages the replacement of lighting and equipment to energy-efficient alternatives such as compact-fluorescent lighting, LED Exit signs, lighting sensors, efficient heating and cooling, and Energy Star computers and other equipment.

**Green Events Package.** The facility must offer a green or environmentally friendly package for conference, meetings and other events. At a minimum, you must be able to provide recycling at such events and be willing to work with environmentally - aware customers on other practices to reduce wastes.

**Lots of Other Great Practices!** Please tell us more about the great practices you're doing. We will include these on the website. Simply mark (X) to any that apply to your facility.

## Linen Service

- Purchase water-efficient washers and dryers. (<u>www.energystar.gov</u>)
- \_\_\_\_\_Use non-phosphate, non-toxic and biodegradable laundry detergents.
- \_\_\_\_Minimize the use of bleach and chlorinated chemicals .
- \_\_\_\_Use of linen service providers that employ "wet" versus "dry" cleaning.

### Recycling

- \_\_\_\_Glass
- \_\_\_\_Aluminum & Steel Cans
- \_\_\_\_Plastic
- \_\_\_Office Paper
- \_\_\_\_Newspapers
- \_\_\_Cardboard
- \_\_\_\_Toner cartridges
- \_\_\_\_Kitchen Grease
- \_\_\_\_Fluorescent Lamps (required by EPA-RCRA law)
- \_\_\_\_Electronics (required by EPA-RCRA law)
- \_\_\_\_Batteries (required by EPA-RCRA law for NiCd and Lead-Acid)
- \_\_\_Other: \_\_\_\_

### Waste Reduction

\_\_\_\_Tracking overall waste bills

#### Rooms

- \_\_\_\_Bulk soap dispensers instead of individual soaps
- \_\_\_\_Fill up shampoo bottles
- Instruct housekeeping to save and reuse unopened items

### Food & Conference Facilities

- Eliminate the use of Styrofoam
- \_\_\_\_Use dishware and glassware & minimize use of disposables
- \_\_\_\_Disposable containers made from bio-based, recycled content or compostable

. material.

- Provide condiments and cream and sugar, etc in bulk
- \_\_\_\_\_Use of water pitchers that minimize use of single-use bottles
- \_\_\_\_Donation of excess food from events
- \_\_\_\_Effective food inventory control to minimize wastes
- \_\_\_\_Purchase locally grown produce and other foods
- \_\_\_\_Filtering of grease rather than recycling
- \_\_\_\_Organic and "sustainably-grown" foods (www.sustainabletable.org/issues)

### Office

- \_\_\_\_Purchase recycled-content paper, paper towels and/or toilet paper
- \_\_\_\_Encouraging suppliers to minimize packaging and other waste materials
- \_\_\_\_Purchasing from vendors that have a commitment to the environment
- \_\_\_\_2-sided copies/printing
- \_\_\_\_use electronic correspondence and forms

- \_\_\_\_Using Green cleaners
- \_\_\_\_Using bulk green cleaners
- Installation of high-efficiency hand dryers
- Purchase low-VOC carpets and fabrics

#### Maintenance

- \_\_\_\_Use of reused building materials or those from sustainable sources
- \_\_\_Use of latex paint
- \_\_\_\_Reuse paint thinners

\_\_\_\_Proper recycling and/or disposal of thinners and solvents (required by EPA-RCRA)

- Last in/first out inventory & effective labeling systems
- Preventative maintenance of all appliances, HVAC systems, and vehicles
- \_\_\_\_Minimize use of pesticides and herbicides
- \_\_\_\_Use integrated pest management (IPM)

www.epa.gov/pesticides/factsheets/ipm.htm

### Water

- \_\_\_\_Tracking overall water usage and wastewater
- Preventative maintenance of drips and leaks
- Water-flow metering to discover leaks and areas of high use
- \_\_\_\_high-efficiency dishwashers
- Encouraging sweeping first
- \_\_\_\_Low flow faucets and showerheads
- \_\_\_\_Low flow toilets and/or waterless urinals
- \_\_\_\_Drought resistant landscape management plan
- \_\_\_\_Green roof development (<u>www.greenroofs.com</u>)
- \_\_\_\_Use of rain barrels
- \_\_\_\_Effective stormwater management plan
- \_\_\_\_Minimize impervious areas (paving, concrete, etc)

### Energy

- \_\_\_\_\_Tracking overall energy bills and set a numeric goal to reduce
- \_\_\_\_Use of compact fluorescent lightbulbs
- \_\_\_\_Install LED Exit Signs
- \_\_\_\_Use of ceiling fans
- \_\_\_\_Use of high efficiency fluorescent ballasts and lamps (T-5 & T-8)
- \_\_\_\_High efficiency HVAC
- \_\_\_Individual thermostats for each room
- \_\_\_\_Use of natural lighting
- \_\_\_\_Solar panels or other renewable energy source
- \_\_\_\_Lighting sensors
- \_\_\_\_Purchase of EnergyStar computers, applicances, etc
- \_\_\_\_Design and operation of buildings that are LEED certified (<u>www.usgbc.org</u>)

# **Green Meetings/Conferences**

- Inclusion of green meetings/conferences in marketing packages
- (see fact sheet on "Green Conferences and Events"

Feel free to list any of these too:\_\_\_
